

Streamline your Weekly Payroll Data by Making Job Labor Easy

From ensuring projects move forward on schedule and budget to keeping track of labor payroll and data, construction operation managers have a lot on their plate. This is where ProjectPro comes to your rescue! Simplify reporting and compliance for construction payroll requirements seamlessly.

Let Timesheets help your Construction Business Achieve Accuracy

ProjectPro provides you with Crew Timesheets designed to keep track of labor data, i.e., the work hours, overtime, leaves, and other essential details related to field productivity. Furthermore, the payroll system can easily access the data to process wages and other compliance-related tasks.

Simplify All Your Payroll/HR Operations with ProjectPro

Attain Payroll Accuracy

Labor is an expensive aspect of every construction project. And working from fragmented systems will increase the challenges. However, ProjectPro helps you get over the stress of working on excel sheets and ensure maximum accuracy and compliance.

Eliminate Payroll Errors

Working with ProjectPro is easy; no need to be concerned about common payroll mistakes. With its centralized data management system, ProjectPro allows you to generate reports with precision, unlike poorly integrated payroll systems.

Smartly Manage Payroll

When all the critical operations at your construction site are fragmented, keeping data in sync becomes hard. However, ProjectPro allows you to take care of all your sensitive data related to payroll and compensation

“ We've been using ProjectPro for over ten (10) years now and it has helped us to manage our jobs and accounting operations from two locations and still all within one database. We have been able to keep our project costs current and generate our job billings timely.
