Experience Flexible Job Quoting & Proposal Documents

Lead the Construction Industry with Smart & Innovative Software to Achieve Success

ProjectPro is designed to make estimating and creation of quotes much easier. Using packages (templates), bid items (job segments), or just estimating by job tasks, there are many ways to quickly prepare your customer quotations.

Now experience quick access to Job Quote Reports on Microsoft Dynamics Business Central with ProjectPro.

Leverage the benefit of job quoting over standard sales quotes. With ProjectPro you can build assemblies of items, equipment, labor, and subcontract entries behind a bid item.

Key Features

Manage Job quotes wisely
Leverage the power of Microsoft Dynamics Business Central for creating job quotes and proposals

Save time & resources
Keep track of issued quotes and proposals for follow up or revisions.

Easy-to-use job quotes
Using the easy-to-use job quotes from ProjectPro, you can prepare quotes by bid items or by work tasks. Your pricing can be detailed or summarized.

Proposed Change Orders
Create a quote for change requests to submit to project owners for approvals. Once approved Change Order Quote becomes an Approved Job Change Order.

Covert job quotes efficiently
ProjectPro ensures easy conversion of job quotes based on packages (templates), bid items, and job tasks.

Streamlines processes and workflows
Present a job quote to your customer using the automated tools for emailing and tracking sales stages through Business Centrals CRM process.

Scale your Construction Business Like Never Before

ProjectPro is the top choice among construction companies globally. Its easy-to-use features and user-friendly interface empower professionals to streamline every aspect of their construction business.
